Prior to installing your iPad you can adjust the rotation. Adjust screw tension evenly to desired rotation. Tighten screws firmly to eliminate rotation if desired.

**1** Using Removable Home Button cover.

Home Button Lock Out

Domed Home Button

Select the Flat Disc style Home Button Cover to eliminate use of Home Button on iPad. Select Domed style Home Button Cover to allow use of Home Button. (Save remaining part for future use)

**2** iPad2 and Newer Spacer Install

Spacers are required for iPad2 and newer Only. iPad2 Spacer set of 4. Note they are numbered 1 thru 4, they are to be installed in specific positions.

**3**

After removing the Bezel from the Back Plate Holder assembly, place it face down on a solid surface. Carefully install your iPad2 face down.

**4**

spacer #1      spacer #2

spacer #4      spacer #3

Each iPad2 Spacer is embossed with a number. Locate spacer 1 and install in top left corner. Once in place, Install remaining three spacers in numerical sequence - counter clockwise.

**5**

iPad2

After all spacers are in place, ensure they are correctly seated by applying downward pressure to each one, snapping them in place.

**6**

Confirm that spacer #1 is not interfering with the power button.
